

## Convenient Transfer and Storage

---

The MiniRack™ is ideal for use with the Lasermax Roll Systems RST3 AutoLoad™ Tilt Table when short runs or quicker turn-around times are desired.

The simple design and solid heavy gauge, welded steel construction make the MiniRack cost-effective and durable.

The MiniRack keeps fan-folded printed stacks under control during bulk transfer to, and feeding of, inserters or other finishing equipment.

Significant MiniRack benefits include:

- Space efficient - occupies only 3.3 square feet (0.3 square meters)
- Mobile - easily moved by hand
- Convenient interim storage
- Convenient height for operator ease
- Handles forms as large as 14" x 18"
- Feeds inserter directly

### Specifications

Height:	46" (117 cm)
Width:	24" (61 cm)
Depth:	20" (51 cm)
Weight (empty):	98 lbs. (44 kg)
Shelf size:	14.5 x 18.5" (368 x 470 mm)
Capacity:	8,000 forms
Form width:	8 to 18" (203 to 457 mm)
Max. form depth:	14" (356 mm)
